Summer Term

Dear Parents,

We have reached the stage in the R.S.H.E curriculum (Relationships, Sex, Health Education) where we discuss puberty and reproduction. During the week beginning Monday 4th July we will be delivering 4 sessions to Tregonning class where we will be addressing the following objectives:

- Correctly identify parts of external genitalia and internal reproductive organs
- Understand that everyone's bodies are different, and we should respect this
- Describe key facts about reproduction and pregnancy
- Understand puberty and that everyone will experience puberty differently
- Identify key changes which happen during puberty
- Understand what menstruation is
- Understand where to go for help and support about puberty and their bodies

Clearly, these aspects of the curriculum must be handled very sensitively, thoughtfully and with great consideration by the teachers responsible for the delivery.

If you have any questions, please do not hesitate to book an appointment with your class teacher at the office where we can share some of the teaching resources that we will be using and talk through any questions you may have. You can find more information about the resources we use on our website <https://www.penponds.cornwall.sch.uk/web/>

Yours sincerely

Mrs Bailey
