

Short Assessment – Check its

To support wider curriculum assessment at the end of each thematic topic and taught concepts, teachers use a variety of methods to inform their assessment judgements.

Five Points – 5 things that help keep our body healthy

1.

2.

3.

4.

5.

Give children between 30 seconds and 5 minutes (age dependent) to bullet point unaided. Stick in books

Expanding sentence starters

The Vikings were from the north...

Give children up to five minutes to expand/build on this sentence and detail everything that they know so far.

Brain DUMP

Ask children to record as much as they can remember of what they have been taught so far in a given topic. Use a mind map, list, bullet points, images and captions to present

Pyramid Questions

Top tier – few children will be able to answer these questions. Extension.

Middle tier – some children will be able to answer.

Base tier – all children should be able to answer.

Decide on quantity of questions for age range for each tier between 2-5 questions.

Home-School – Tell me everything you know about...

Tell me everything you know about...the Romans.
